

# CERAMIC & CONVENTIONAL HEADWORKS

---

Complete range of ceramic and conventional headworks with plastic, brass or inox bodies suitable for all applications in which high performance valves are required, withstanding great mechanical requirements and providing the same water flow.

# PLASTIC BODY HEADWORKS

## 90° BASIC

Ceramic headworks made from plastic body, with a rotation angle of 90°. Plastic versions are suitable for low-lead applications.

✓ KTW-NSF-ACS

## 90°

Ceramic headworks made from plastic body, with a rotation angle of 90°. Plastic versions are suitable for low-lead applications.

✓ KTW-ACS

## 180° BASIC

Ceramic headworks made from plastic body, with a rotation angle of 180°. Plastic versions are suitable for low-lead applications.

✓ KTW-NSF-ACS

## 180°

Ceramic headworks made from plastic body, with a rotation angle of 180°. Plastic versions are suitable for low-lead applications.

✓ KTW-ACS

# BRASS BODY HEADWORKS

## 90° MC

Ceramic headworks made from brass body, with a rotation angle of 90°.

✓ ACS-KTW-WRAS

## 90° MN

Conventional headworks made from brass body, with a rotation angle of 90°.

✓ ACS

## 180° MC

Ceramic headworks made from brass body, with a rotation angle of 180°.

✓ ACS-KTW-WRAS

# INOX BODY HEADWORKS

## 90° INOX

Ceramic headworks made from inox body, with a rotation angle of 90°.
