

S20

Infrared Sensor

Versions

27EI010002 IR Sensor S20 for M1 & T1

Technical Specifications

General

Technology	Active IR sensor – ON/OFF
Rated impulse voltage	6 V DC
Static power consumption	< 0,5 mW

Infrared Detection

Detection range (KODAK R-27 Grey 18% card)	5±1cm
Sampling period	250 ms

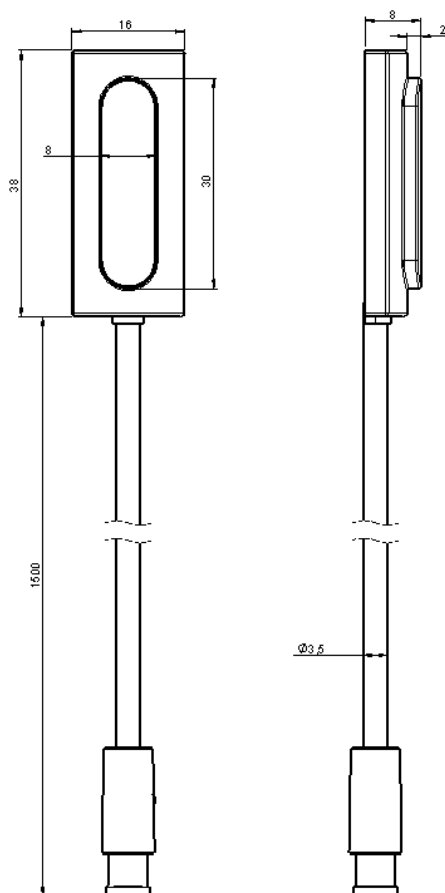

Cable

Cable length	1500 mm
Connector	IP67 4 pin connector

Description

ON/OFF infrared sensor to be installed in the faucet body, especially devised for washbasins and kitchen applications. The sensor can be connected to M1 and T1 electronic water valves.
